### NOTES

<sup>#</sup> The turnaround time refers to the maximum number of working days from receipt of sample and reporting results.

<sup>§</sup> We are a United Kingdom Accreditation Services (UKAS) accredited laboratory, and these tests which are marked with '§' are accredited to the internationally recognised ISO/IEC 17025 standard for laboratory competence.

<sup>\*</sup> In order to ensure that we have the reagents in stock, a ten working-day turnaround time is quoted, however we aim to test within five working days.

<sup>\*</sup> Other smears may be available on request.
